CUSTOMER GUIDE — "FOR DUMMIES" EDITION

DeskOS Sovereign Operating System

Prepared For: Andina Customs & IP Counsel (Bogotá, CO)
Pillar Edition: Pillar 1 — Boutique Customs Clearing/Freight Forwarders & Boutique IP/Trademark Law Firms
Unit ID: `deskos-co-andina-customs-ip-counse-7351bf75`

“US & Mainstream SaaS Providers Lock Out Your Region. DeskOS Is Your Sovereign, Permanent Operational Advantage.”

3-Minute Setup ("For Dummies")

Step 1: Open Your Pre-Loaded 6 WorkCells (`wC01` .. `wC06`)

Open `deskos-co-andina-customs-ip-counse-7351bf75_DeskOS.xlsx` in Google Sheets or Excel. Your own firm's data is already loaded in `wC04_Firm_Truth_Vault`, 2 days of processed intelligence are ready in `wC01_Live_Radar` & `wC02_Approve_Dispatch`, and 6 permanent calculators are unlocked in `wC03_Permanent_Instruments`.

Step 2: Attach Your Autonomous `Autons`

In Google Sheets, click `Extensions → Apps Script`, paste `Autons_Code.gs`, and save. Reload your sheet to use the ⚡ **DeskOS Command** menu.

Step 3: Flip the Dead-Sheet Switch (`wC01-B2`) & Add Your Free BYOK Key (`wC05-B5`)

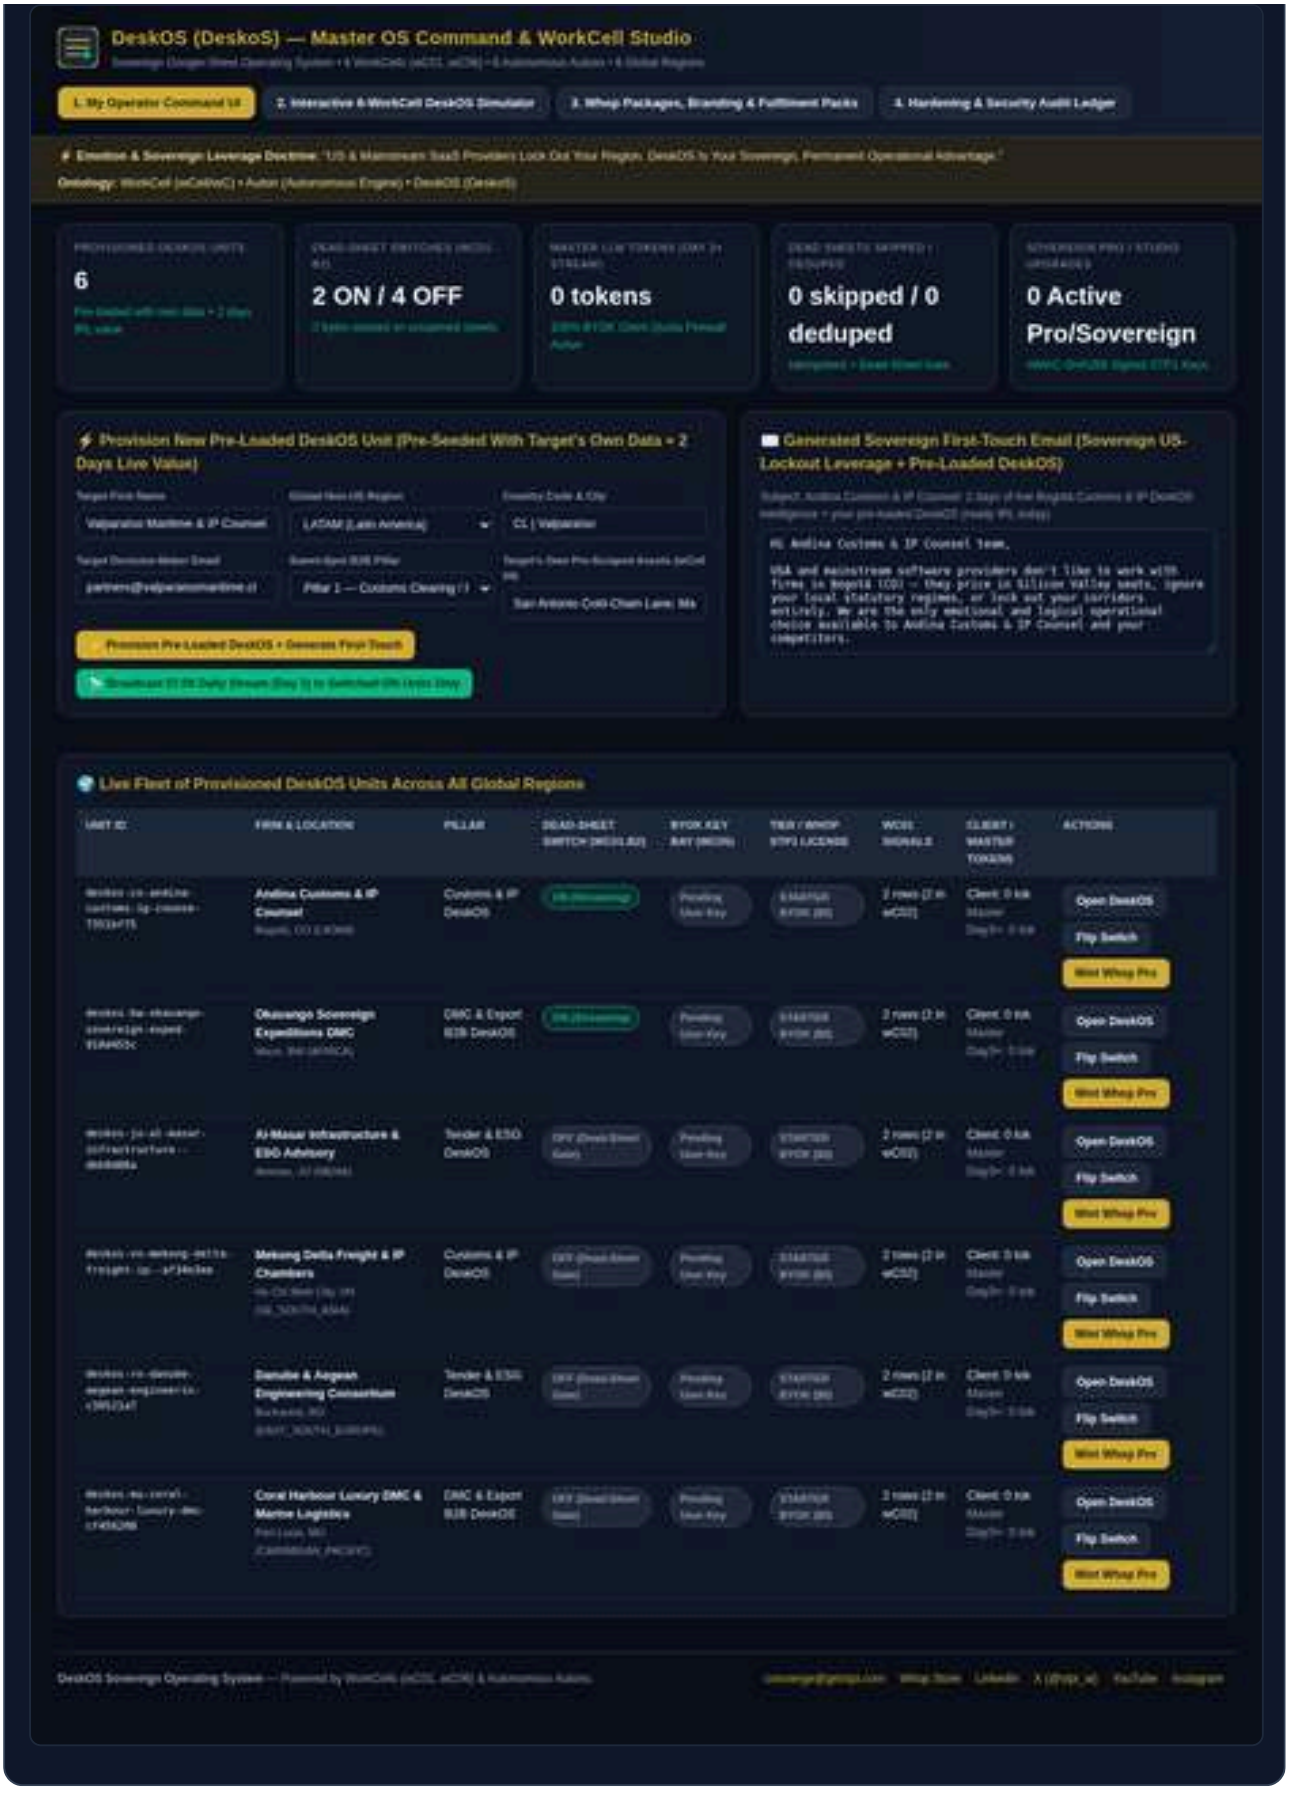

Set cell `B2` in `wC01_Live_Radar` to `ON` to receive daily 07:00 streams. Paste your free Gemini or Groq key in `wC05_BYOK_Key_Bay` cell `B5` so `KeyGateAuton` processes Day 3+ signals on your own quota. Paste your Whop `STP1.PRO.*` key in `wC06_Command_Upgrade_Gate` cell `B4` to unlock masked Pro contacts.

⚠️ **MANDATORY POLICY — CONTACT US FIRST OR FACE IMMEDIATE REMOVAL:**
Always contact our concierge desk first at concierge@getstpi.com for any technical support, billing adjustment, or WorkCell customization. Filing unannounced disputes or abusing Master OS endpoints without contacting us first results in immediate revocation of your `STP1` license and permanent removal.

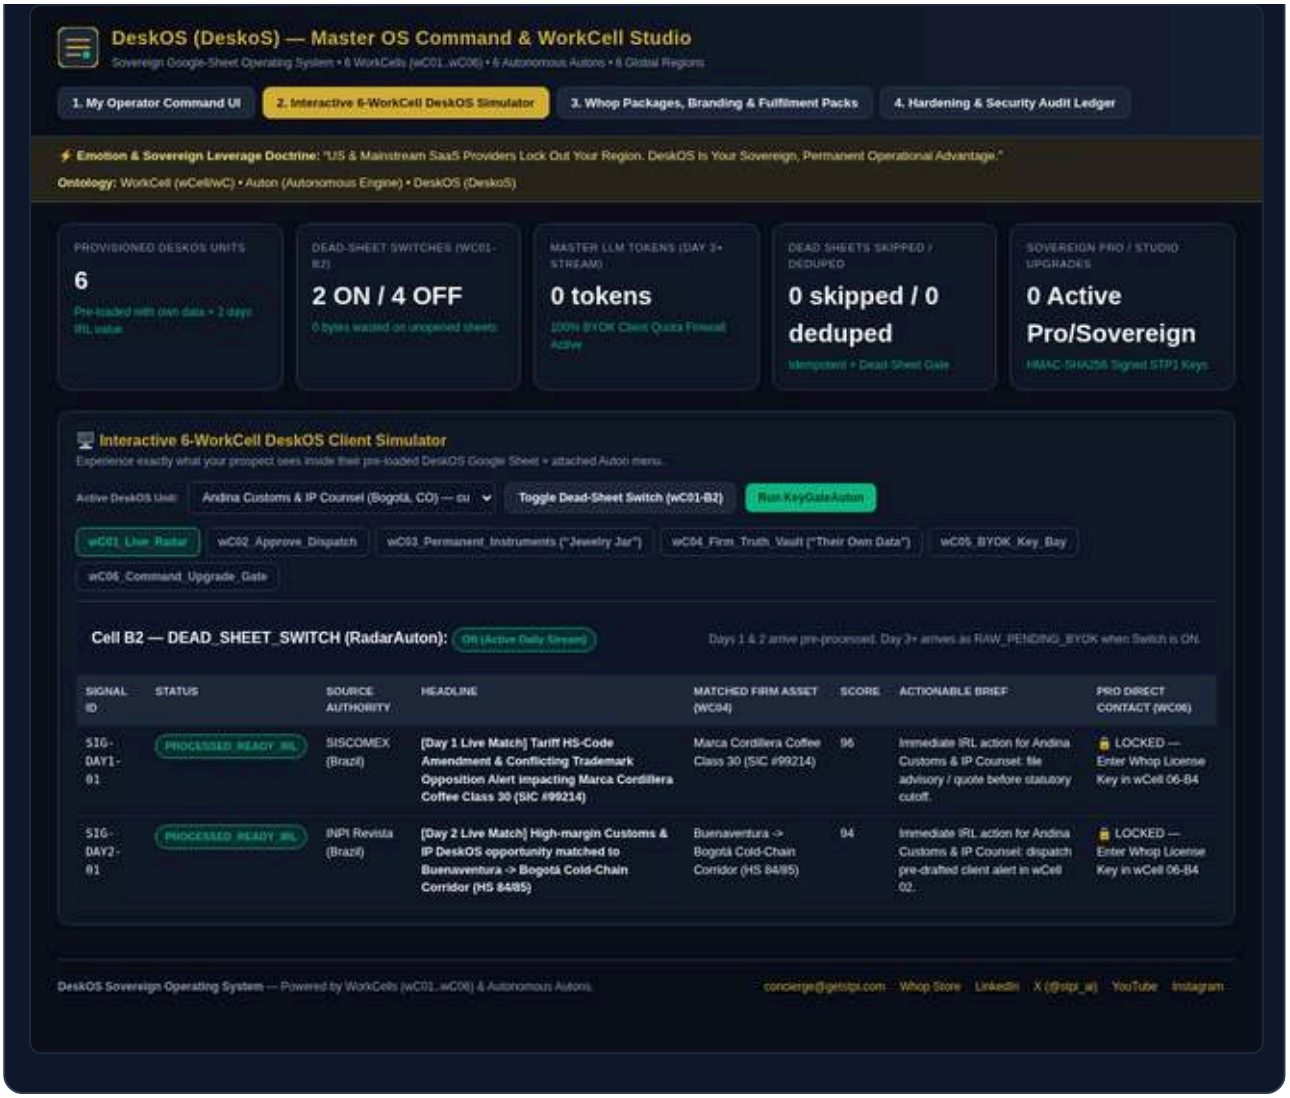

Visual Walkthrough — Live Product Screenshots
